## "Not a Chance" For These Girls, Picked For Tech Show Chorus---Coming on Soon at the National Theatre

Management Decides on  
"First Come, First  
Served" System of  
Ticket Applications —  
Sale Starts This Morn-  
ing

BLANKS ALREADY OUT

Dress rehearsals of the scenes of Tech Show 1917, shortly to be staged at Northampton, Somerville and at the National Theater in Boston, mark the practical completion of all preparations for its performance. Applications for seats, as in former years, will be sent to students and must be filled out to insure special reservations.

The Tech Show Orchestra of twenty pieces, under the direction of Mr. William Howard, is ready to assist at the performances.

Applications for tickets to the Tech Show will be received this morning at the Tech Show office. The former method of the allotment of tickets by chance will be dispensed with this year and tickets will be given out in the order of application. The Show is to be given at the National Theater, at the corner of Tremont and Berkeley streets, on the afternoon and evening of Saturday, April 21. The theater is reached by taking a Tremont Street Subway car at Park or Boylston Street. Stations and getting off at Castle Square. It is not far from the Castle Square Theater.

The Show will give performances at the Academy of Music at Northampton, Thursday afternoon and evening, April 19, and at the Somerville Theater in Somerville on Monday evening, April 23. The orchestra will consist of twenty men who have been working under the direction of Mr. William Howard, former Director of the Boston Municipal Orchestra. Mr. Howard has been musical director of Tech Show for several years and has also coached the orchestra for the Hasty Pudding Show at Harvard.

The sleeping cars to be used on the Northampton trip will be in the rail-

road yard at Exeter Street the night of the Winter Concert and the men who go to the Concert may go there immediately after the dance. Anyone wishing to go with the Show at the regular rates may do so by seeing the manager. A stage rehearsal of "Not a Chance" was held last Saturday at the National Theater. The stage, while rather small, is larger than any of the others to be used, so that the production of the Show will not be cramped. The auditorium is large and there are a number of boxes which will enable the Show to accommodate the many groups who prefer to use them.

Owing to the fact that the lease for the theater could not be signed until recently, it was found impossible up to now to arrange for definite forms of applications, but this has been settled. While the actors were adjusting their voices to stage conditions Saturday, assistants in the various departments were kept busy sending out application blanks to the student body. This is the latest date at which these applications for a Tech Show have ever been sent out. While only five performances have been arranged for up to date, there may be more arranged for later.

## JOHN RITCHIE JR. TO DISCUSS WHITE MTS.

Noted Conchologist Will Feature  
Pack and Paddle Meeting With  
Experiences in the Hampshire  
Highlands

HAS MADE BOTANICAL STUDIES

On Thursday of this week the Pack and Paddle will have the opportunity of hearing a talk given by Mr. John Ritchie, Jr., on the subject of "Footing the White Mountains." The talk will be unique in the fact that Mr. Ritchie will lay particular emphasis on the botanical and geological treasures to be found in the mountains.

Mr. Ritchie has made extensive studies along these particular lines which have lead him to many interesting hikes among the White Mountains. During these excursions he has had occasion to make an extensive collection of photographs, many of which will be thrown upon the screen during the course of the evening. These will include views of the principal groups of mountains and the geological aspects of ravines and natural phenomena to be found throughout the mountains. Mr. Ritchie, as a botanical expert, will comment on the flowers and shrubs peculiar to that part of the country which he has come to know through a minute search of the country "off the trails." Alpine grasses and shrubs which are not visible to the every-day excursionists, have been sought out by Mr. Ritchie and will be featured in his talk to the society.

## SPECIAL FRESHMAN FROM A CERTAINTY

1920 to Hold Dance at Hotel Hemenway on Prom Night

That the freshman Prom bids fair to become an institution at Technology is demonstrated by the success with which it is being taken up by the class of 1920.

On account of the fact that the idea is a new one at Technology the number of sign-ups has been proportionately small, but already thirty-five out of the necessary forty have signed up, making the affair a practical certainty. The floor of the Hotel Hemenway, in Back Bay, has been obtained, together with Walter Johnson's Orchestra, for the dancing, and already an attractive dance order, containing twenty numbers and three extras and featuring the Tech Show specialty, "Tech Blues," has been made up. The dancing will begin at 9.00 o'clock and last till 2.00. The second payment of sign-ups will be due Thursday of next week and at that time the final programs will be ready for distribution. This last payment of three dollars and a half, is payable to any of the committee.

## ACTIVITIES SHOULD CONTINUE

We believe it to be in the best interests of patriotism that the various activities of the Institute carry out what plans they now have without material changes and we earnestly recommend this course for all undergraduate affairs. We believe that plans for events to take place some time ahead should be made tentatively.

This recommendation to the students is in accord with the views of the officials of the Institute and the Undergraduate Preparedness Committee.

## THE INSTITUTE COMMITTEE.

### CALENDAR

Monday, April 9, 1917

1.05 P. M.—Meeting of Candidates for The Tech in The Tech Office.

3.00 P. M.—Sophomore Baseball Practice. Ford Field.

5.00 P. M.—English High Club Meeting. Room 2-290.

Tuesday, April 10, 1917

7.00 P. M.—Musical Clubs Start from North Station for Malden.

7.00 P. M.—English Reading. Room 1-175.

## CANDIDATES FOR TENNIS TEAM TO PRACTISE NEXT WEDNESDAY

First Match of Season with Harvard.  
Second Team April 25

The first tennis practise, which was scheduled for last Saturday afternoon at Jarvis Field, Cambridge, was postponed on account of rain. The next practise will be Wednesday, April 11, at 3.00 o'clock, at the same place. Everybody is to report to Captain Harold V. Kaler '18 and Manager Wirt Kimball, at the "Shanty."

In order to explain the system of competition and practise, Kaler will meet all candidates in Room 2-190 at 1.00 o'clock next Wednesday. It is planned to hold practise regularly on Wednesday and Saturday from now on, and weather permitting, the management especially desires everyone to attend next Wednesday's practise.

All men who cannot work out on these afternoons should see Captain Kaler in order to make arrangements for other days. At present it is planned to have the freshmen practise with the varsity. The first match of the season will be with the Harvard second team on April 25, at Harvard.

From all present indications, the Institute will be represented by a strong tennis team this Spring. Many of the old stars are back and the new 1920 men are expected to fill the vacancies left by last year's Seniors.

## 1918 BASEBALL MEETING

There will be a meeting of the Junior baseball team today in Room 4-108 at 1.30 o'clock. The game which was scheduled to be played Saturday afternoon with the Charlestown Center School was postponed on account of rain, but there will be a game with Westboro High on Wednesday afternoon. The team expects to play several interclass games this Spring.

## AERO CLUB PREPARES

Collecting Data on Military  
Openings For Members

The officers of the Aero Club desire to find out from all of the men who signed up for the club at the first two meetings whether they wish to enter the Federal aviation service and what branch they wish to take up. There are three branches of the aero service open to the members of the club: the Army, which is a division of the Signal Corps, the Navy, and the industrial, which is concerned with the manufacturing end only. The officers also wish to ascertain what previous experience with airplanes and aero motors the members have had. A committee consisting of E. P. Warner '17, chairman, Camb. 6212; J. C. Braislin '18, W. B. Ford '18, G. S. Murray '18, and C. H. Tavener '19 has been appointed to give undergraduates information and assistance in any matters relating to preparedness and war service in the aeronautical field. Every man in the club will be approached personally by members of this committee in order to find out their choice in this matter.

The committee has collected information on the requirements for enlistment in the United States Naval Reserve force and Naval Flying Corps, and other data pertaining to these respective branches. The committee also has application blanks for enlistment in the Massachusetts School for Naval Air Service which will maintain a training camp at Squantum during the Summer. Information on any of these subjects may be obtained by consulting members of the committee personally or by attending the meetings of the committee held every day in Room 11-190 between the hours of 1.00 and 2.00, and 5.00 and 6.00.

## THE TECH ISSUES CALL FOR SPRING CANDIDATES MONDAY

New Men Will Be Eligible to Election  
to News Staff in June

There will be a meeting today of all freshmen and Sophomores interested in competing for positions on the news department of The Tech in the Tech Office at 1.05 o'clock. The Managing Editor will outline what will be required of men coming out for the paper, but men, by attending, do not put themselves under the obligation of trying out for the paper. The candidates enrolling now will be eligible for election to the News Staff this June.

The call for candidates at this time is in accord with the policy of The Tech for the last four years. Men enrolling at this time will have a good chance to succeed and will have an equal chance for advancement with the men already on the paper. Faithful work until the summer will mean election to the News Staff, which opens up the possibility of News Board. From the News Board the three Night Editors are picked. One of the Night Editors as a rule becomes Managing Editor, and above this position there are two jobs, Editor-in-Chief and General Manager.

## ELECTRICAL ENGINEERS NOW TO ELECT OFFICERS

Ballots were mailed to all members of the Electrical Engineering Society last Saturday for election of next year's officers. The nominations, which closed last week, are as follows: For President, W. H. Costelloe '18, A. E. Tuttle '18, J. Young '18; for vice-president, H. G. Gray '18, A. T. Kiley '18, E. N. Little '18, A. F. Murray '18; for Secretary, M. W. Adams '18, G. A. Elz '18, J. W. B. Kennard '18, J. H. Tipton '18; for Treasurer, C. H. Dag-nall '18, R. F. Grohe '18, F. A. Lane '18, C. E. Tucker '18.

## NO MORE RECEPTIONS AT PRES. MACLAURIN'S HOUSE THIS YEAR

Owing to the illness of Mrs. MacLaurin, wife of President MacLaurin, there will be no more student receptions at the President's house this year.

## J. A. MOYER GIVES TALK

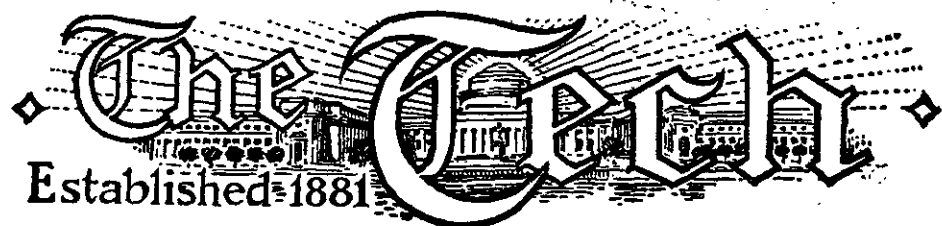

M. E. Society Closes Series of  
Entertainments

Nearly one hundred men attended the last smoker of the year given by the Mechanical Engineering Society last Friday evening in the Caf. This affair closes a very successful series of entertainments given by the society this year.

Mr. J. A. Moyer, a director of the State Bureau of University Extension, gave an address on "Steam and Gas Turbines." His talk was illustrated by lantern slides. He told of the work that the Bureau was taking up at the present and explained some of its plans for the immediate future.

H. M. Brayton '17 was the student speaker. He gave a short talk on "Engineering Charts." This work is new at the Institute and is taken in connection with the course of Mathematics Laboratory. He gave some examples of charts made by plotting from formulae containing four or more variables occurring in several powers.

The banquet, which marks the close of all the society's activities, will be held in the Riverbank Court Hotel, on May 3. The management has been particularly fortunate in obtaining Mr. Ira N. Hollis, president of the American Society of Mechanical Engineers and President of Worcester Tech, to be present at this time. The results of the elections of officers for the ensuing year will be announced at the banquet.

Entered as second-class matter, September 16, 1911, at the postoffice at Boston, Mass., under the act of Congress of March 3, 1879.

Published tri-weekly during the college year by students of the Massachusetts Institute of Technology.

#### A COMMITTEE FOR BUSINESS

UNDER the by-laws of the Institute Committee, the Architectural Society is now under the necessity of petitioning for a resumption of its standing as an activity. This is according to the provision that two consecutive absences of an activity representative automatically exclude the activity from Committee representation. The penalty has been carried out for the first time, and its enforcement emphasizes the remarkable record of attendance and interest which the present Institute Committee has kept up.

Compared with Committees of past years, the present one has reached so high a level of influence and accomplishment as to seem another organization instead of the old one under new leadership. Traditionally wont to admit its powers reluctantly and to ignore the implied responsibilities, the Institute Committee has at last seized those powers and responsibilities and turned them to incalculable good. Such work as that of the sub-committees on Preparedness and the Walker Memorial gives "student self-government" at Technology eminent distinction and meaning.

#### DEADWOOD AMONG THE ENGINEERS

THE Engineer Corps seems to suffer from the same laxity of support by volunteers which is the lot of all organizations run on a "sign-up" basis. One constantly hears the reflection from men "enlisted" in the Corps, "Well, shall I attend drill today—do I feel that way?" Apparently men who have been in the habit of taking their student activities as a joke find it hard to realize that they owe any serious duty to what they consider merely another activity. Seldom do we see a graver instance of unthinking selfishness than this misapprehension of the status of the Engineer Corps and its work. To remain, mere deadwood, in the Corps and thus exclude someone whom its training would benefit and prepare, is to do Technology an injury which makes the offender little more, at this time, than a public nuisance.

Undoubtedly an erroneous impression was given by our editorial on "Courtesy to the Flag" which was written in the belief that those in military organizations were required to salute all national flags. Instead, as a communicant today points out, Army regulations definitely provide that "flags on permanent poles are not saluted." Our error was due to confusing "flag" with "color" or "standard," the two being separate and distinct things.

Underclassmen, especially freshmen, are reminded of the opportunity for taking up news work on The Tech, offered at this time. A visit to the Tech Office this noon should be of profit to men who would like to widen their acquaintance with matters about the Institute and who are interested in gaining the valuable experience which news work affords.

Interest attaches to the letter written by General Walker at the outbreak of the Civil War, when he offered his services to the American Government in any desired capacity. It will be found in a nearby column.

The questionnaire of the Preparedness Committee was issued last Wednesday. Has your copy been filled out yet?

#### COMMUNICATION

Editor of The Tech:

The words of the Dean at the Junior Dinner seem to have had a chloroforming effect on the third year men: "The Juniors are the flower of the Institute," however, did not sufficiently describe us as fittingly as our toastmaster expressed it after the Dean had had spoken: "The Juniors are the flowers of the Institute" was a good correction of the Dean's statement. Let us to the point.

On April 20 the annual Spring Meet is going to be run in the form of an Interclass Meet in which the third year men are going to receive such rough treatment from the hands, or legs, of the freshmen as they will wish never again to suffer. Something must be done! Unless some more Juniors come out to train, the class is going to make a miserable showing in Class Week. There are Juniors who can run—for these there is no excuse to crawl; there are those who think they can run—for them this will be the best opportunity to show it; and there are those who do not know they can run—these will not be doing their duty as Juniors during Junior Week unless they give themselves a chance. There are eleven days left for all those men to train themselves into shape. It is by no means too late, but something MUST be done and done NOW. Instead of devoting all of Junior Week to sipping tea and to other effeminate amusements, the Juniors who are doing nothing to help put their class on top should realize their responsibility to make this week a crowning success for their class both in social functions and in the field of sport. Juniors, come out and train NOW! Let us win that Spring Meet and if we can do nothing else, let us at least beat those freshmen! SHOW YOUR PATRIOTISM! PREPARE!

A. DE ZUBIRIA S. '18.

#### STUDENTS FELT AS PATRIOTIC IN PRESIDENT WALKER'S DAY

Worcester, May 31, 1861  
 To His Excellency  
 Hon. John A. Andrew,  
 Governor and Commander in Chief.

Sir:—

I should be much gratified to receive a commission in one of the companies to be organized for the war, if it might consist with your duty to the service. I cannot assure myself that I am peculiarly fitted for military rank, to which I have had but little inclination; yet I am confident of a mind willing to perform my office through the length and breadth of it. I have had some instruction in company movements under well-appointed soldiers, and my general education will, I trust, be found sufficient to any probable demand in such position. I beg you, however, not to believe that I make a commission the condition of my service for I hold myself ready for the humblest and hardest work in the sacred cause.

I have the honor to be  
 Your Excellency's Obedt. Servt.,  
 FRANCIS AMASA WALKER.

It was thus that Francis A. Walker, later second President of the Institute, wrote to the Governor of Massachusetts offering his services to the state a fortnight after the outbreak of the Civil War. The reprint of this letter is due to Professor Pearson, of the English Department.

At the time of writing this letter, General Walker was a student in the law office of Devens and Hoar, in Worcester, Mass., having graduated

Cor. Berkeley St.  
Estb. 1850

from Amherst College in the Fall of 1860. At this time President Walker was not quite twenty-one years old, and nothing came of this first attempt to enlist, on account of strenuous opposition from his parents. It was not until nearly three months later that he entered the service, and then not as a commissioned officer but as a sergeant major of the Fifteenth Massachusetts Regiment of Volunteers.

As sergeant major he served with distinction during the Peninsular campaign and at Fredericksburg, and was seriously wounded at Chancellorsville, receiving the brevets of colonel and brigadier general for "gallant and meritorious service" in this battle. During the advance on Richmond in 1864 he was taken prisoner, and after undergoing six weeks of the horrors of Libby Prison was released on parole. At the close of the war he made a brilliant record as director of the ninth and tenth census and in 1873 he became Professor of Political Economy in the Sheffield Scientific School at Yale, from which position he was called to the second presidency of the Institute in 1881.

The following is quoted from "Concerning M. I. T."  
"During President Walker's administration the Institute, founded by William Barton Rogers, grew from a struggling technical school to a great scientific university. In 1881 there was only one important building; the instructing staff numbered 37 and the student body 302. In 1897, when General Walker died, the Walker Building, two Engineering Buildings, and the Garrison Street shops had been added to the material plant; there were 130 members of the Faculty and 1200 students. Of far more consequence, however, than the mere growth of numbers was President Walker's influence on the intellectual and moral tone of the school. Soldier, economist, statistician, he was in hearty sympathy with all that made for broad and liberal culture. The department of literature and political economy were developed and the strength and breadth of training which President Rogers provision had planned was brought to fruition under his successor. Greatest of all, however, was President Walker's personal influence. His courage, energy, and enthusiasm, and aggressive endorsement of the Institute's plan of education were the main elements in its successful development. The spirit of Technology today is in a large measure the reflection of the spirit of President Walker."

COMMUNICATION

To the Editor of The Tech:  
In regard to a recent communication in your columns, which apparently gave the impression that all citizens, especially enlisted men, should salute all flags on passing, I would refer the writer to Capt. James A. Moss' "Manual of Military Training," where, under the head of "The Flag," army regulations are quoted as providing as follows:  
"Flags on flagstaves and permanent poles are not saluted."  
I trust this will clear up any difficulty arising from the apparent error.  
L. T. HILL '17.

RIFLEMEN GET FIRST GLIMPSE OF OUTDOOR TARGETS TOMORROW

Two Other Trips This Week—Outdoor Team Tentatively Chosen

The Rifle Club will make the first trip to the outdoor range tomorrow. There will be three other trips made to the range at Walnut Hill this week, on Tuesday, Thursday and Saturday. The sign-up sheet is posted on the bulletin board in Building 10 opposite the Bursar's office. Any members of the club who wish to do so may sign up; the twenty who have shot least will take the trip. The list will close two days before the trip is to be taken. The names of the men who have been selected to take the trip out of those entering their names will be posted the morning of the day on which the trip is scheduled on the door of the club office in the basement of Building 1.

There will be a range officer at the office at 1.00 o'clock on the two days previous to the trip to issue guns and ammunition to the men going out. Those taking tomorrow's trip will meet at South Station at the gate to track 19 at five minutes before two o'clock.

The outdoor squad has been tentatively chosen as follows: G. R. Bond '19, acting team captain. W. S. Burbank '19, F. L. Butterworth '17, W. Hadden '20, F. C. Howard '17, J. C. Irwin '18, H. J. McDonald '17, H. M. Noelke '20, T. E. Stahl '17, and A. E. Tuttle '18. This is not a final choice, the men named being chosen only on a starting basis. Positions on the team squad are open to competition and any man in the club who proves to the officers that he is better than men on the team will be placed on the squad. The ten men named above will be retained for two weeks when two will be dropped, eight being carried on until the day of the final match when two more will be dropped, only six shooting in the match. If the team comes among the first five in the intercollegiate, which is very probable, the men who have shot on it will be awarded the "T.T."

The officers of the club wish to teach as many men as possible in the Institute how to shoot, and with this aim in view it has been arranged to take three trips to the range per week and to give those men who have shot least preference to others in the matter of selecting those who are to take these trips. A range officer will go on each trip especially for the purpose of coaching and instructing beginners. The Captain wishes to make it understood that the team is only of secondary importance, the main object of the club not being to develop good shots among a few men but to interest as many men as possible in rifle shooting and to teach them how to handle a gun.

The range at the Armory will be kept open for two weeks, including this week, during which time the membership match and indoor qualifications will be shot. Anyone in the club is eligible to enter this match. The qualifications must be shot on special targets provided for that purpose, which can be obtained from the club for twenty cents each. The officers of the club hope that as many men as can find time to do so will enter this match. The range will be open every day except Saturday and Sundays, including next week, and there will be a range officer there each day to help new men and to explain the match.

PROFESSORS TO AID STUDENTS' TAKING ARMY EXAMINATIONS

Several of the professors of the various departments of the Institute have offered to aid the students preparing for the army examinations to be held on April 23. They intend to hold classes for the reviewing of all the various subjects which must be taken by applicants for a 2nd Lieutenantcy in the regular army. A schedule of classes in the various subjects for the week of April 9 will be posted on the bulletin boards by Monday noon.

FACULTY NOTICES

EXAMINATION FOR OFFICE IN THE REGULAR ARMY

By order of the President, Seniors who take the examinations for office in the Regular Army, on April 23, will be excused from attending the Institute exercises of the week previous to April 23.

WALTER HUMPHREYS,  
Registrar.

MILITARY SERVICE

Students enlisted in the Military Service of the country should, on being called into service, give written notice to the Registrar, of their withdrawal from the Institute.

They may, at the same time, make application of the terms of their readmission.

WALTER HUMPHREYS,  
Registrar.

SERVICE IN DEFENCE OF THE OF THE COUNTRY—NOTICE TO UNDERGRADUATES:

Except in the case of service of especial urgency, students below the Senior class will not be excused from the remaining exercises of the term, but will be granted leave of absence.

Seniors will be excused from all exercises from the time they are actually called into the military service, and if their records up to that time are satisfactory, they will be recommended for the degree of Bachelor of Science in June.

This rule will also apply to Seniors called into the service of the government other than the military service, provided that in the opinion of the Faculty this service is of a character to justify such a procedure.

For further information apply to the Secretary, or in his absence, to the Registrar.

A. L. MERRILL,  
Secretary.

LAST ENGLISH READING

The last reading before Junior week will be given by Professor Seaver on Tuesday, April 10, from 7.00 to 8.00 o'clock in Room 1-175. Smoking will be permitted.

WALTER HUMPHREYS,  
Registrar.

## COMMENCE SCHEDULE IN FRATERNITY BASEBALL

Season Play Opens This Week—Lively  
Contests Expected

The interfraternity baseball leagues have now been formed and a definite schedule of games is being made out. The first game of the season, between Sigma Chi and Sigma Alpha Epsilon, was to take place Saturday on Dean Field, but was called off on account of rain and will be played some time this week. The fraternities are divided into four leagues, the Beacon League, the Commonwealth League, the Cambridge League, and the Suburban League. In the Beacon League are four fraternities: Delta Upsilon, Sigma Alpha Epsilon, Phi Sigma Kappa, and Theta Xi; in the Commonwealth League, four: Alpha Tau Omega, Phi Gamma Delta, Kappa Sigma, and Lambda Phi; in the Cambridge League, four: Delta Kappa Epsilon, Delta Tau Delta, Phi Beta Epsilon, and Theta Delta Chi; in the Suburban League, five: Sigma Kappa, Theta Chi, Phi Kappa Sigma, Beta Theta Pi, and Lambda Chi Alpha. The committee in charge of fraternity baseball comprises F. S. Hubbard '17, A. P. Farnsworth '19, and R. J. McLaughlin '18.

The season starts this week and ends on May 3. The games scheduled so far this week are: in the Commonwealth League, Phi Gamma Delta vs. Lambda Phi, and Kappa Sigma vs. Alpha Tau Omega; in the Cambridge League, Delta Tau Delta vs. Theta Delta Chi, and Delta Kappa Epsilon vs. Phi Beta Epsilon; and in the Beacon League, Theta Xi vs. Sigma Alpha Epsilon. No

dates are set except the week during which the game is to be played, the fraternities arranging the day to suit their own convenience. The games will be played at 6.00 A. M. in the nearest field available. The fraternities will play each other for the championship as last year and the winner will receive a silver cup with its name inscribed upon it. At the end of the season it is expected that the fraternity champions will play the dormitory champions for supremacy.

## 1919 BASEBALL PRACTICE

The Sophomore baseball team will practice this afternoon at 3.00 o'clock on Ford Field, and on Wednesday afternoon will play Somerville High School at Somerville.

## GIVE CONCERT AT MALDEN

The Musical Clubs will give a concert tomorrow night at the Malden Armory. All members of the club will go on this trip and will take the train from North Station at 7.00 o'clock.

## ENGLISH HIGH CLUB MEETING

A business meeting of the English High School Club will be held today at 5.00 o'clock in Room 2-290. The officers for the coming year will be elected and any other business that might come before the meeting will be attended to. All graduates of the English High School who are not as yet members of the club are cordially invited to attend.
